Students in Multiple Activities

(found on page 9 of our band handbook)

“There are many students in the band who elect to participate in other school activities and organizations. It is the practice of KHS that sponsors and coaches work together so that students can successfully perform in each organization they choose to participate in. Conflicts with band performances and other school activities rarely occur. When they do, it is the student’s responsibility to inform the band director. These conflicts are generally worked out between the band director and the sponsor of the other organization. These conflicts are worked out on an individual basis to the best benefit of the child, the organization, and the activity involved.”

“Band performances take precedence over other activity’s practice sessions. Conversely, the other school activities performances, competitions, games or matches should take precedence over band practice. If a band performance occurs at the same time as another activity’s performance, the two sponsors will work to resolve the issue. School club events do not take precedence over any band activities. Outside of school events and organizations do not take precedence over any band activities.”
